

# Concerns of students and Early Career scientists (CONNECT) Town Hall

**The Concerns of Junior Scientists Committee has a new name!**

**Wednesday 11 November, 12:45 p.m. (Central Standard Time)**  
Regular day changed to accommodate the packed online DPP schedule

Due to the circumstances of the pandemic, we have chosen to forgo our standard Q&A panel discussion in favor of a presentation of available online APS and DPP resources for students and early career scientists.

We will present information about

- ❖ The APS engage websites
  - ❖ Program resources sites
    - ❖ CONNECT site with early career, graduate student, and undergraduate student resources
  - ❖ Discussion resources/forums for
    - ❖ Staying connected with the community
    - ❖ Finding job, internship, and grant postings
- ❖ Job Fair and Resume Help resources at DPP
- ❖ Opportunities for next year
  - ❖ Student Day
  - ❖ Fusion and Plasma Graduate School Day

We will also be soliciting community feedback for resources for the APS Engage website or a possible additional, separately maintained CONNECT website.

**We are also looking for nominations for the new Chair Elect**
